

Infoblox User Group Meeting

MARCH 17, 2010

INFOBLOX USER GROUP MEETING

Learn more about Infoblox's latest release version 5.0 and the benefits to your organization

DATE: **Wednesday, March 17, 2010**

TIMES: **10:00AM - 10:30AM** *Registration*

10:30AM - 1:30PM *Presentations, Luncheon, and Networking*

Seating is limited - Register today!

You've made the investment in Infoblox, and now is your chance to learn more about the enhanced functionality and increased value of the newest release that will allow you to leverage your existing infrastructure to realize higher value while saving money for your IT department.

Learn more about some of the most pressing security issues and talk with clients, representatives, engineers - the experts from Infoblox who understand it. You'll enjoy the speakers and lunch while networking with your peers.

What does this new release means to your organization?

Attend to learn more:

- Updates on increased functionality of 5.0r1
- Introduction to DNSSEC and how to prepare for it
- Improve your IPAM knowledge with Port IQ Switchport integration
- Realize the increased efficiencies and benefits of the new release through customer case studies
- Next steps for seamlessly integrating and upgrading your solution
- Update on 5.0r2; Virtual NIOS on ESX this spring!
